CN Rail (* indicates only one in stock)

Note: From 1980 on the Operating Timetables covered the full Region. This was not the case in the 1960's and 1970's. To cover all lines in a region one might require several different timetables. Effective with the October 1994 Timetables, the format has changed. Timetables are now in a 4 1/4" x 11" 3 hole punched format so that they fit into a 3 ring binder. Therefore pages can be changed rather than reprinting the whole timetable.
